Master of Business Administration

Complete Your MBA in One Year Post Undergraduate Program!

Missouri S&T is offering an MBA degree customized for Missouri S&T undergraduate students. While the MBA can be tailored to complement a background in engineering, it is also open to students from all degree areas. You need senior standing in a current Missouri S&T degree program, qualifying GPA, and admission for dual enrollment!

This program offers the opportunity to complete a portion of the MBA coursework during your last year of undergraduate courses. (GPA ≥ 3.0 qualifies for one semester; GPA ≥ 3.5 qualifies for two semesters.) When pursuing this option, it allows you to pay undergraduate fees while completing graduate coursework. This option is not only cheaper, but it allows you to complete your MBA coursework quicker than the standard MBA schedule – ONE YEAR!

All applicants must submit three letters of reference, a resume, and statement of purpose. The GMAT may be waived with a GPA of 3.2 or better at Missouri S&T.
